

CONTAINER HANDLING

DRIVETRAIN VELOCITY RELIABILITY VISIBILITY

Imagine working with an organisation that delivers products and solutions with velocity, whose reliability extends across every sector of their professional competency, and whose operational systems give you visibility on key elements of the process. That is excellence in execution. That is Drivetrain Power and Propulsion.

We are an international integrated organisation operating on 5 continents. Our exceptional depth of technical ability spans the complete engineering product lifecycle: design, application engineering, troubleshooting, supply and service, and a worldwide through-life support programme. Our capabilities, and our understanding of the crucial need for timely delivery, have created global demand for our expertise on heavy mobile powertrain systems, large frame turbochargers, diesel and gas power generation and compression.

Our expertise is applied across three industry streams:

- Mobile Powertrain
- Power and Compression
- HS Turbochargers

WHAT WE DO IN CONTAINER HANDLING

Drivetrain brings to your business specialist through-life support and engineering capability for axles and powershift transmissions for the container handling market. Our high-end maintenance, repair, and overhaul (MRO) competencies are underpinned by an historically supported culture of premium customer service, and the deep technical knowledge-base of industry professionals who are accomplished at providing solutions for this segment.

Our invigorated focus on this market starts with a commitment to help you minimise critical equipment downtime. Our processes have been fine-tuned so we can best provide you with rapid responsiveness as soon as you experience equipment failure or have a parts requirement. This includes an extensive service exchange programme; our global investment in component testing, diagnosis, and simulation technology; and access to our comprehensive local support network for powertrain genuine parts. We are dedicated to delivering the part, the support, and the service, when you need it, for:

- Container handling machinery:
 - Laden and empty container handlers
 - Ro-Ro
 - Reachstackers
 - Terminal tractors
- Supply, installation and support of Dana Spicer Off-Highway and AxleTech genuine parts for new and service exchange:
 - Axles
 - Powershift transmissions
- Market support for Kessler and Sisu axle components.

Drivetrain is a key partner with AxleTech in Australasia, providing OEM and aftermarket technical and sales support.

PREMIUM SERVICE TO MINIMISE CRITICAL DOWNTIME

- Service exchange programme for Dana Spicer Off-Highway and AxleTech components.
- Genuine spare parts.
- Through-life support of brands, including AxleTech, Kessler, Sisu, and all major drivetrain brands.
- Provide technical support, troubleshooting, and complete rebuild for powershift transmissions and axles.
- Component dynamometer testing, diagnostics, and simulation testing.
- Service centres throughout Australasia.

DRIVETRAIN COMMITTED TO BEING PART OF YOUR SOLUTION

Velocity

- We have recently remodelled our processes to ensure delivery of timely solutions for the container handling segment.
- Reducing your equipment downtime is our priority and the focus of our business improvements.
- We've developed a complete service exchange programme across Australasia.
- The scale of our support network extends to regional service centres in multiple locations, with local inventory.

Reliability

- As the authorised OEM service centre your needs are being addressed by factory trained technicians, working with genuine parts, and using the latest testing equipment.
- Our best-practice policies see us operating with the latest specifications, and all processes are underpinned by our Integrated Management Systems for quality, safety, and environment.
- Our depth of knowledge and technical capability draws on 25 years of experience as an engineering organisation with a breadth of professional engineering resources.

Visibility

- Our systematic management processes allow full visibility, so you are in touch with a service job's progress at each milestone.
- Our reporting processes set an industry benchmark of professionalism and integrity, offering transparency throughout our quality procedures, including detailed quality service reports and status reporting.
