

LOCOMOTIVE SERVICES

DRIVETRAIN VELOCITY RELIABILITY VISIBILITY

Imagine working with an organisation that delivers products and solutions with velocity, whose reliability extends across every sector of their professional competency, and whose operational systems give you visibility on key elements of the process. That is excellence in execution. That is Drivetrain Power and Propulsion.

We are an international integrated organisation operating on 5 continents. Our exceptional depth of technical ability spans the complete engineering product lifecycle: design, application engineering, troubleshooting, supply and service, and a worldwide through-life support programme. Our capabilities, and our understanding of the crucial need for timely delivery, have created global demand for our expertise on heavy mobile powertrain systems, large frame turbochargers, diesel and gas power generation and compression.

Our expertise is applied across three industry streams:

- Mobile Powertrain
- Power and Compression
- HS Turbochargers

WHAT WE DO IN LOCOMOTIVE

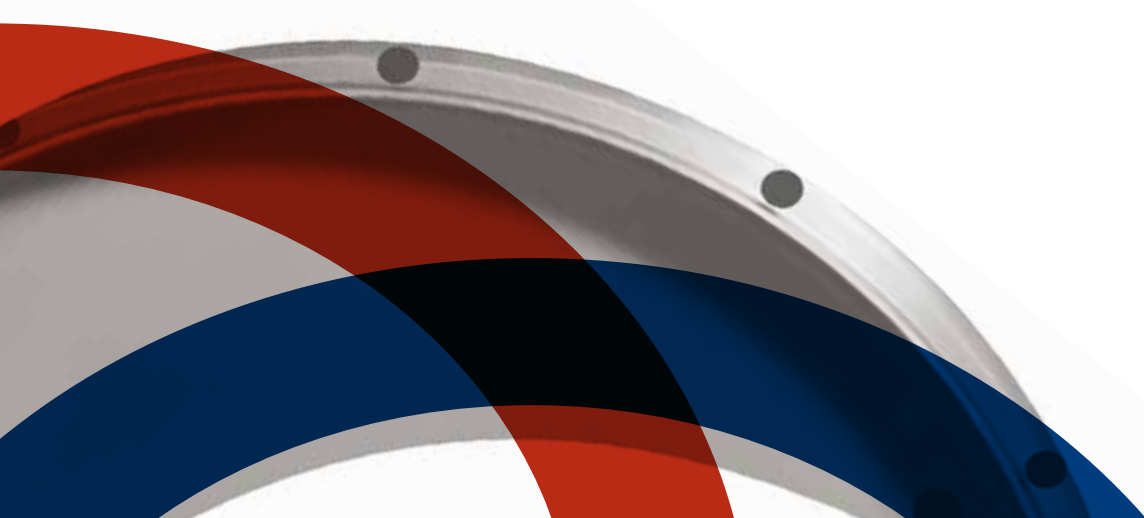

Thanks to our local resource availability and investment in inventory, Drivetrain is in the unique position to add value to your business by providing complete engineering solutions to minimise engine downtime. Rapid response from a highly experienced team with unsurpassed technical expertise, within an established engineering framework, equals cost effective long-term efficiency for your rail operations. Agile, price competitive and backed by ISO 9001 Quality Assurance Certification, Drivetrain's Locomotive offering means security for our customers.

OUR LOCOMOTIVE SERVICES

- Maintenance, Repair and Overhaul (MRO) of all locomotive engines.
- Reciprocating Compressor MRO.
- MRO of all turbocharger makes.
- Engine Component Overhaul including oil pumps, fuel pumps, water pumps, and power assemblies.
- Locomotive maintenance and field support including feasibility studies, fault finding, failure analysis, and engine and component testing.
- Technical and engineering services in remote locations.
- Project Management, supporting the achievement of your time, cost and quality project goals.
- Hydraulic Transmission MRO.

Drivetrain's Locomotive division draws on an extensive network of suppliers to provide spare parts and associated technical support. This is further supported by our Service Exchange Programme and inventory investment.

Drivetrain is a
credible,
independent,
adaptable
solution
provider with a
depth of
engineering
knowledge.

OUR PRODUCTS

WORLD CLASS TURBOCHARGER OEM

Drivetrain Power and Propulsion manufacture the world's most efficient large frame turbocharger – the HS Turbocharger. Drivetrain's international HS Turbocharger manufacturing facilities and world-wide service network are mobilised from our global platform of technical distinction.

PENN LOCOMOTIVE TRACTION GEARS AND PINIONS

Recognised as the quality standard of locomotive traction gears, the carburized and hardened "Super Gear" by Penn Locomotive is a premium product, now recognised as the standard in the railroad industry.

GIRO DUOLINE FUEL SYSTEMS

This Patented system has unique features offered by no other product. Providing a fail-safe high pressure fuel supply pipe system which prevents fuel fires and allows burst hoses to be readily identified and isolated, the Giro Duoline fuel systems give customers peace of mind.

DRIVETRAIN YOUR TRUSTED PARTNER

Your locomotive needs have shaped our focus:

Velocity

- The scale of our service network extends to where rail operators need us meaning responsive and agile service for our customers.
- Streamlined product support systems enable rapid response to enquiries and product delivery.
- Our technical support, troubleshooting capability, and fault diagnostics all contribute to the reduction of engine downtime.

Reliability

- Our best-practice policies see us operating with the latest specifications, and all processes are underpinned by our Integrated Management Systems, including quality, safety, and environmental.
- Our depth of knowledge and technical capability draws on 25 years of experience as an engineering organisation with a breadth of professional engineering resources.

Visibility

- Our systematic management processes allow full visibility, so you are in touch with a service job's progress at each milestone.
- Our reporting processes set an industry benchmark of professionalism and integrity, offering transparency throughout our quality procedures, including detailed quality service reports and status reporting.
