DRIVESHAFTS

High-quality driveshafts for a wide
range of off-highway vehicles

an **Engenco** company

KYNETIC DRIVESHAFTS

Drivetrain designs and produces high-quality driveshafts for a wide range of off-highway vehicles. We supply our driveshafts for both OEM builds and aftermarket replacements and are frequently used by mining, defence, transport and energy customers.

Drivetrain's driveshaft range is complementary to our application engineering, repair and overhaul services. Our driveshafts are reliable, durable and reduce our customers' cost of operations.

ABOUT US

Drivetrain is a leading supplier of technical products and services to the Mining, Energy, Transport and Defence industries. An extensive network of technical and supply capability across those markets allows Drivetrain to provide excellence in service to our customer base, along with an outstanding representation and support for our market leading brands. At Drivetrain, our customer's needs are the driver of all aspects of our business and our focus on flexibility, dependability and rapid service has allowed us to grow and develop as a true partner throughout our thirty years of operation.

From the engineering and supply of new mining and energy assets and equipment through to service, maintenance repair and overhaul, parts support and advanced fleet diagnostics, Drivetrain are positioned to provide through life support to industrial companies spanning the full product life cycle.

At Drivetrain, Safety is our number one priority. With the deployment of our safe work systems, smart technologies and enduring commitment to employee education and training, we ensure a safe work environment for all who work in and visit our facilities.

Our people are the strength that allow us to achieve. The passion and pride of our workforce is the driver of the quality and dependability that our customers rely on.

DRIVETRAIN'S SERVICES INCLUDE:

- Maintenance, repair and overhaul of driveline components
- Supply of utility vehicles to the Mining industry
- Asset health diagnostics and management
- Application engineering
- Supply and maintenance of fixed plant and mobile engines
- Gas compression products and services
- Field service maintenance
